

# Praksisøving 1

Håvard Solberg Nybøe

TTM4100 - 26. januar 2022

## Spørsmål

1. TCP, HTTP og DNS

Figur 1: Protokoller

2. Det tok  $3.34 - 3.33 = 0.01$  sekunder å motta HTTP OK svaret.

A screenshot of a timer or stopwatch. The display shows the number '3.327288408' in white text on a dark blue background. Above the number, there is a dashed line.

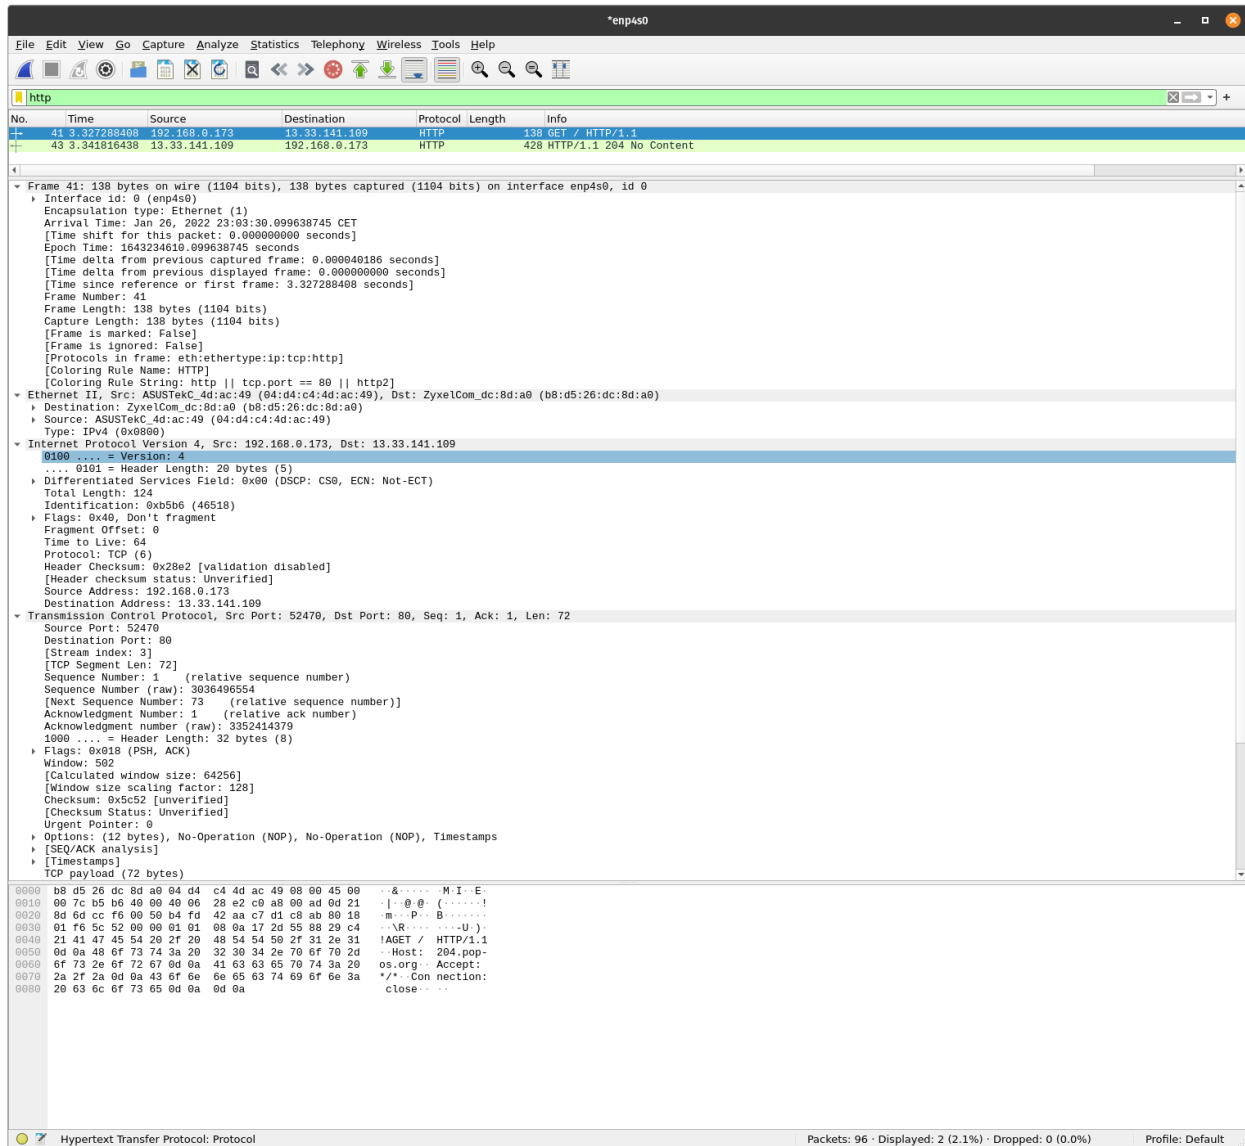

Figur 2: Tid siden starten av opptaket

3. Adressen til `gaia.cs.umass.edu` er `13.33.141.109`, og adressen til min maskin er `192.168.0.173`.

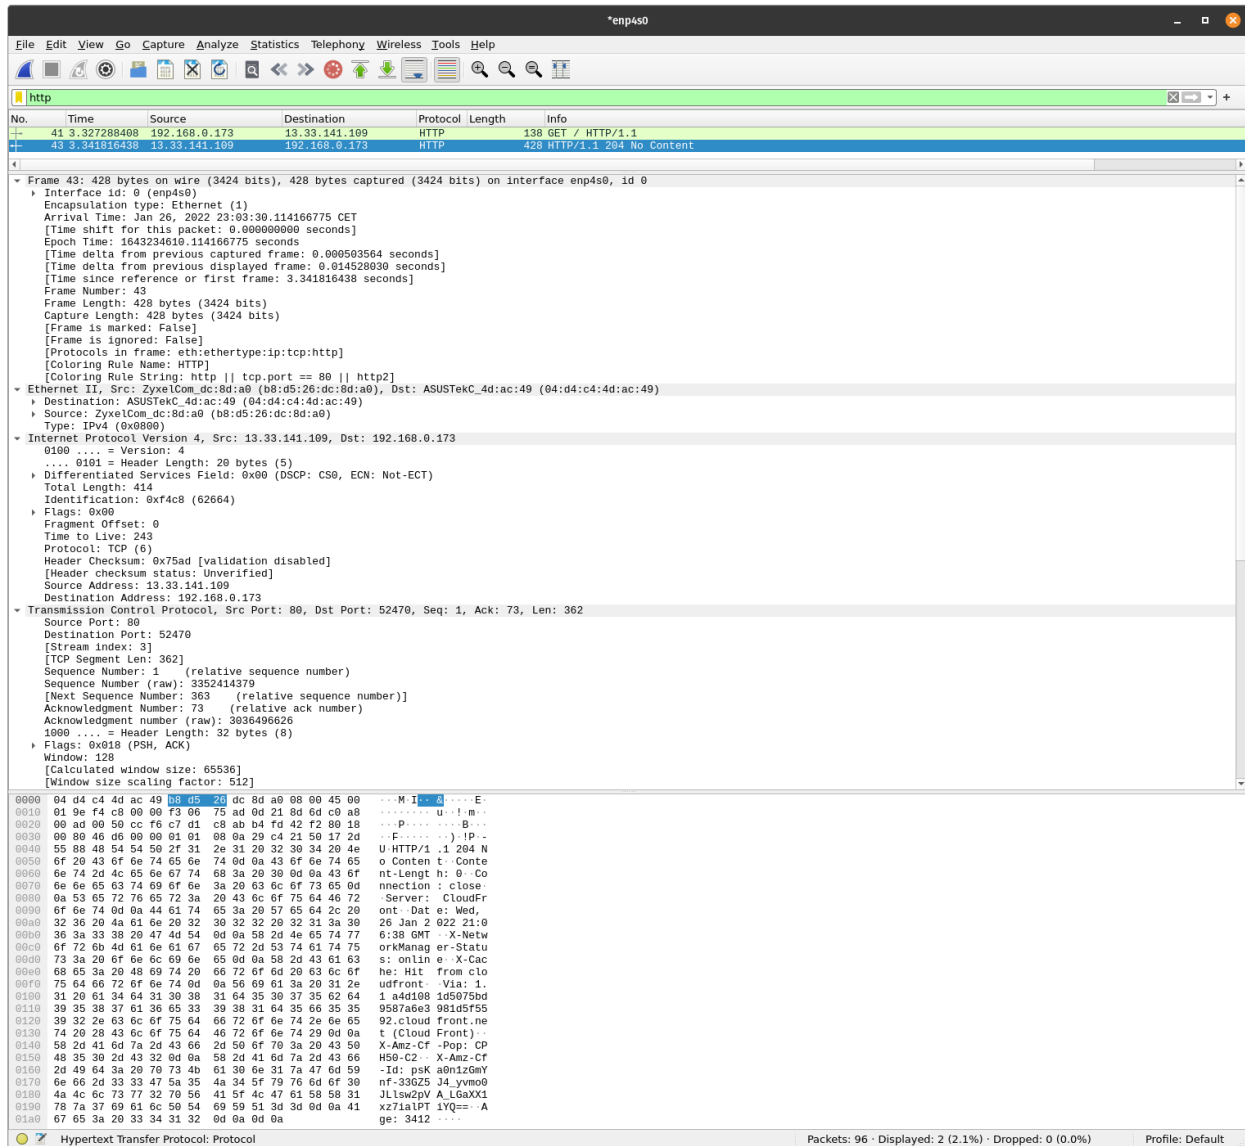

A screenshot showing two IP addresses side-by-side. The first IP address is '13.33.141.109' and the second is '192.168.0.173'. Both are displayed in white text on a dark blue background.

Figur 3: Adressene til kilden og destinasjonen

4. Størrelsen til innholdet i HTTP OK meldingen var `428 bytes`.
5. Skjermbilder:

Figur 4: HTTP GET

Figur 5: HTTP OK
